Replacement of entire ascending aorta and aortic valve, safer technique for (Edwards and Kerr), 837

homograft, aortic, of mitral valve in sickle cell trait (Yacoub et al.), 568

mitral, heterologous aortic valves for (Richardson et al.), 489

valve, aortic, with pulmonic valve homograft (Manhas et al.), 432

Resection, bronchial, and anastomosis been reported infrequently for treatment of bronchial adenoma, why has? (Boyd et al.), 359

Respiratory failure, acute, in infants following cardiovascular surgery (Downes et al.), 21

Resuscitation in baboons, pulmonary changes following hemorrhagic shock and (Buckberg et al.), 450

Retrograde pulmonary venous pressure measurement—Fact or artifact? (Buckberg), 393

Revascularization, myocardial, questionable index of: internal thoracic (mammary) arteriography (Dart et al.), 117

Ringer's lactate solution used for hemodilution, serum electrolyte changes after cardiopulmonary bypass with (Dieter et al.), 168

Rupture(d) left bronchus, delayed repair of: case report with determination of pulmonary surfactant (Strevey et al.), 638

"spontaneous," so-called, atraumatic, of esophagus (Abbott et al.), 67

S

Saphenous vein graft techniques, coronary artery surgery utilizing: clinical experience with 224 operations (Effler et al.), 147

Scintiphotography, rapid, tension hepatothorax diagnosed by (Jallah et al.), 283

Septal defect, ventricular, aortic origin of right pulmonary artery and (Flege et al.), 468

Septum, atrial, total, in growing animals, fate of autologous pericardium and Dacron fabric used as substitutes for (Mohri et al.), 501

ventricular, intact, and hypoplastic right ventricle, surgical management of pulmonary atresia with (Trusler and Fowler), 740

Serum electrolyte changes after cardiopulmonary bypass with Ringer's lactate solution used for hemodilution (Dieter et al.), 168

Shock, hemorrhagic, and resuscitation in baboons, pulmonary changes following (Buckberg et al.), 450

Sickle cell trait, aortic homograft replacement of mitral valve in (Yacoub et al.), 568

Silastic, critical obstruction of prosthetic heart valves due to lipid absorption by (McHenry et al.), 413

Silicoma and carcinoma of lung (Ashbaugh and Waddell), 352

Spinal malformation, esophageal duplication (foregut cyst) with (Tarnay et al.), 293

Stab wounds of heart, immediate operative treatment for: experience with fifty-four consecutive cases (Borja et al.), 662

Stabilization, mediastinal, following pneumonectomy by air-filled Silastic intrapleural bag (Waltz and Shumacker), 613

Staphylococcus aureus, outcome of antibiotic-soaked arterial grafts in guinea pig wounds contaminated with *E. coli* or (Richardson et al.), 635

Starr-Edwards prosthetic valves, fabric-covered, clinical and hemodynamic assessments of (Reis et al.), 84

valves, Teflon embolism from (Niles), 794

Steal, artery, coronary, due to anomalous left coronary artery originating from pulmonary artery (Wright et al.), 461

Stenosis, esophageal, H-type tracheoesophageal fistula complicated by (Stephens), 325

Stimulation, autonomic, reflex, in dogs with cardiac transplantation before and after reinnervation, responses to electrical and (Kontos et al.), 382

Streptokinase in acute pulmonary embolism: experimental study (Gurewich and Thomas), 655

Subarachnoid-pleural fistula, traumatic (Saylor et al.), 847

Subclavian artery, right, anomalous, arteriosclerotic aneurysm of (Hunter et al.), 754

Suction techniques, tracheobronchial, evaluation of (Kirimili et al.), 340

Surfactant, pulmonary, case report with determination of: delayed repair of ruptured left bronchus (Strevey et al.), 638

Surgery, cardiovascular, in first year of life (Mustard et al.), 761

Surgical approach, aggressive, to coronary disease (Johnson and Lepley), 128

considerations in "atypical" mycobacterial pulmonary disease (Fox et al.), 1

Surgical—Cont'd
management of pulmonary tuberculosis due to atypical mycobacteria (Hattler et al.), 366
Syndrome(s), hormone, associated with bronchogenic carcinoma: clues to histologic type (Omenn and Wilkins), 877
Horner, reverse (Cole and Berghuis), 603
Lutembacher's, iatrogenic (Mirhoseini et al.), 299
Systemic-pulmonary arteriovenous fistula: a case report (Wolarsky and Humphreys), 859

T

Teflon embolism from Starr-Edwards valves (Niles), 794
envelope protection for cardiac electrodes in growing swine (Sato and Glenn), 830
Tension hepatothorax diagnosed by rapid scintiphotography (Jallah et al.), 283
Tetralogy of Fallot, new method of right ventricular outflow reconstruction in corrective surgery for (Asano and Eguchi), 512
Thoracic wounding, management of empyema after: observations on 25 Vietnam casualties (Levitsky et al.), 630
Thresholds, area, fibrillation, ventricular, in dog and pig: determined by new experimental model for production of myocardial infarction (Myers and Cherry), 401
Toxicity, of hyperbaric oxygen, cardiac and systemic (Jacobs et al.), 555
Tracheobronchial suction techniques, evaluation of (Kirimili et al.), 340
Tracheoesophageal fistula due to cancer (Martini et al.), 319
Transfusion, blood, autologous, in pulmonary surgery (Daggett et al.), 546
Transplantation, cardiac, before and after reinnervation, responses to electrical and reflex autonomic stimulation in dogs with (Kontos et al.), 382
in 4 patients: hemodynamic function in immediate postoperative period (Schroeder et al.), 155
Transvenous cardiac pacing, percutaneous, initiated at bedside: results in 40 cases (Phillips and Butner), 855
pacing, permanent: unusual problems in placement and maintenance of electrode catheters (Nelson et al.), 206
Traumatic aneurysms, recent surgical and pharmacologic experience with acute dissecting and (Aronstam et al.), 231
Traumatic—Cont'd
left ventricular aneurysms (Aronstam et al.), 239
subarachnoid-pleural fistula (Saylor et al.), 847
Triatrial heart, surgical correction in infancy of unusual form of (Wedemeyer et al.), 685
Tuberculosis, pulmonary, due to atypical mycobacteria, surgical management of (Hattler et al.), 366
Tunneling instrument, myocardial (Hammond et al.), 759

V

Valve(s), aortic, heterologous, for mitral replacement (Richardson et al.), 489
homologous, betapropiolactone-sterilized, followed up to four years, clinical experience with (Barnes et al.), 785
safter technique for replacement of entire ascending aorta and (Edwards and Kerr), 837
mitral, in vivo study of blood flow patterns across normal (Williams et al.), 824
operation, mitral, open, management of aortic insufficiency complication (Taber), 707
Vein graft techniques, saphenous, coronary artery surgery utilizing: clinical experience with 224 operations (Effler et al.), 147
Venous return, pulmonary, anomalous, total, posterior approach to correction of (Roe), 748
Ventilation, collateral, dynamic nature of (Chen et al.), 518
Ventricular aneurysms, left, traumatic (Aronstam et al.), 239
fibrillation area thresholds in dog and pig: determined by new experimental model for production of myocardial infarction (Myers and Cherry), 401
left, excision, exclusion, or plication for akinetic areas of heart (Kay et al.), 139
right, outflow reconstruction in corrective surgery for tetralogy of Fallot, new method of (Asano and Eguchi), 512
septum, intact, and hypoplastic right ventricle, surgical management of pulmonary atresia with (Trusler and Fowler), 740
stimulation after A-V block, comparison of effect on cardiac function of single-site and simultaneous multiple-site (Tyers), 211
Vietnam casualties, observations on 25: management of empyema after thoracic wounding (Levitsky et al.), 630

XUM

Von Willebrand's disease, open-heart surgery in patient with (Komp et al.), 225

W

Women, carcinoma of lung in (Deaner and Trummer), 551

Wounding, thoracic, management of empyema after: observations on 25 Vietnam casualties (Levitsky et al.), 630

Wounds, stab, of heart, immediate operative treatment for: experience with fifty-four consecutive cases (Borja et al.), 662

X

X-ray therapy, preoperative, as adjuvant in treatment of bronchogenic carcinoma (Shields et al.), 49

Board of Thoracic Surgery (see under Board)

Anastomosis, artery, pulmonary, right—superior vena cava, study of mechanisms of shunt failure after (Boruchow et al.), 531

of ascending aorta to right pulmonary artery (Waterston's operation), pericardial effusion with tamponade following (Radley-Smith et al.), 565

Aneurysm, ventricular, and adynamic myocardium, operative assessment of (Calinog et al.), 710

Angiography, pulmonary, and bronchography, serial perfusion and ventilation studies following reimplantation of lung using xenon^{133} (Lincoln et al.), 108

Anomalous pulmonary venous connection, total: surgical considerations and results of operation (Gomes et al.), 116

Antibiotics, evaluation of cloth-covered valves and role of: experimental endocarditis following cardiac valve replacement (Detmer et al.), 46

Anticoagulants on transplanted heart, effect of (Kahn et al.), 616

Aorta, ascending, left ventricular function after occlusion of: assessments of various methods for myocardial protection (Enright et al.), 737

to coronary artery saphenous vein bypass grafts (Mitchel et al.), 457

right pulmonary artery (Waterston's operation), pericardial effusion with tamponade following anastomosis of (Radley-Smith et al.), 565

Aortic arch anomalies (Hewitt et al.), 746

area, experience with Wada-Cutter valve prosthesis in: one-year follow-up (Björk), 26

ball variance by simple radiographic technique, detection of: report of case (Murphy et al.), 253

valve, bicuspid, in association with: case of left ventricular outflow tract tumor causing obstruction (Bernstein et al.), 166

heterografts, formalin-treated, deterioration of (Buch et al.), 673

replacement, homograft (Gonzalez-Lavin and Ross), 1

pulmonary valve autograft for (Gonzalez-Lavin et al.), 322

with molded autogenous grafts grown in response to implanted Silastic, replacement of (Geha et al.), 661

Arch anomalies, aortic (Hewitt et al.), 746

Arterial pressure, pulmonary, mean, with results of surgery for nonrestrictive ventricular septal defects, correlation of (Wagner et al.), 510

and venous microsurgical bypass grafts for coronary artery disease (Green et al.), 491

Arterio-arterial and intra-aortic balloon counterpulsation in therapy of cardiogenic shock, comparative study of (Fleming and Aaby), 818

Arteriovenous fistula, congenital, between left internal mammary artery and ductus venosus: case report (Stanford et al.), 248

*July, pp. 1-150; August, pp. 151-302; September, pp. 303-456; October, pp. 457-608; November, pp. 609-756; December, pp. 757-916.

Artery anastomosis, pulmonary, right—superior vena cava, study of mechanisms of shunt failure after (Boruchow et al.), 531
balloon pumping, intrapulmonary: assistance of right ventricle (Kralios et al.), 215
banding, pulmonary, previous, late cardiodynamics following correction of ventricular septal defects with (Ebert et al.), 516
coronary, ascending aorta to, saphenous vein bypass grafts (Mitchel et al.), 457
main, left, and divisions, severe segmental obstruction of: surgical treatment by saphenous vein graft technique (Favaloro et al.), 469
right, diffusely diseased and totally occluded, complete surgical correction of (Robinson et al.), 504
ligation, pulmonary, contralateral, in baboon, immediate function with survival after left lung autotransplantation and (Joseph and Morton), 859
pulmonary, right (Waterston's operation) pericardial effusion with tamponade following anastomosis of ascending aorta to (Radley-Smith et al.), 565
with pulmonary arterial homograft, replacement of (Seki et al.), 853
Artificial heart valves, design criteria for (Akutsu), 34
Ascending aorta, left ventricular function after occlusion of: assessments of various methods for myocardial protection (Enright et al.), 737
to coronary artery saphenous vein bypass grafts (Mitchel et al.), 457
to right pulmonary artery (Waterston's operation), pericardial effusion with tamponade following anastomosis of (Radley-Smith et al.), 565
Assist device, heart, acute hemodynamic studies of modified peristaltic bypass type of (Takano et al.), 796
Atrial contractions, synchronous, in canine cardiac homograft, hemodynamic effects of (Nelson et al.), 427
level, coexistent mitral valve disease with left-to-right shunt at: results of surgical treatment in 15 cases (John et al.), 174
Augmentation, diastolic, during heart bypass (Hewitt and Weichert), 123
Autogenous grafts, molded, grown in response to implanted Silastic, replacement of (Geha et al.), 661
peritoneum for heart valve replacement, use of (Fadali et al.), 188
Autograft, valve, pulmonary, for aortic valve replacement (Gonzalez-Lavin et al.), 322
Autotransplantation, lung, left, and contralateral pulmonary artery ligation in baboon, immediate function with survival after (Joseph and Morton), 859
Axillary-subclavian vein thrombosis following implantation of pacemaker catheter in internal jugular vein (Griepp et al.), 889

B

Ball variance, aortic, by simple radiographic technique, detection of: report of case (Murphy et al.), 253
Balloon counterpulsation, arterio-arterial and intra-aortic, in therapy of cardiogenic shock, comparative study of (Fleming and Aaby), 818
pumping, intrapulmonary artery: assistance of right ventricle (Kralios et al.), 215
Banding, artery, pulmonary, previous, late cardiodynamics following correction of ventricular septal defects with (Ebert et al.), 516
Benign tumors of lung: ten-year surgical experience (Arrigoni et al.), 589
Bicuspid aortic valve, in association with: case of left ventricular outflow tract tumor causing obstruction (Bernstein et al.), 166
Bleeding patterns after open-heart surgery (Gomes and McGoon), 87
Blood cell destruction, red, associated with valvular disease and prosthetic valves, quantitation of (Wallace et al.), 842
damage, apparent, minimal, in Landé-Edwards membrane oxygenator at physiologic gas tensions (Vervloet et al.), 774
synthetic, physiology of (Clark et al.), 757
vessels, small, prolonged partial cardiopulmonary bypass and integrity of: role of serotonin and of platelet transfusion (Wisselink et al.), 789
Board of Thoracic Surgery: Notice of address change, 608, 756
Notice of Examinations, 150, 302, 456, 608, 756
Notice of Trial Special Training Program, 892
Bronchial brushing, technical details of (Fry and Manalo-Estrella), 636
circulation in lung transplantation, significance of (Mills et al.), 866
compression from enlarged, hypertensive right pulmonary artery with corrected transposition of great arteries, dextrocardia, and ventricular septal defect: diagnosis and surgical treatment (Miller et al.), 233

XUM

Bronchogenic carcinoma, invasive, early and in situ: report of 28 cases with postoperative survival data (Woolner et al.), 275
mitochondrial peculiarities in (Razzuk et al.), 291
Bronchography, serial perfusion and ventilation studies following reimplantation of lung using xenon^{133}, pulmonary angiography, and (Lincoln et al.), 108
Bronchospirometry, differential, as pulmonary function tests in dogs, comparison of lung scanning and (Isawa et al.), 719
Brushing, bronchial, technical details of (Fry and Manalo-Estrella), 636
Bypass, cardiopulmonary, partial, lasting up to seven days in alert lambs with membrane lung blood oxygenation (Kolobow et al.), 781
prolonged, and integrity of small blood vessels: role of serotonin and of platelet transfusion (Wisselink et al.), 789
total, plasma serotonin levels during (Demos et al.), 257
grafts, microsurgical, arterial and venous, for coronary artery disease (Green et al.), 491
vein, saphenous, ascending aorta–to–coronary artery (Mitchel et al.), 457
heart, diastolic augmentation during (Hewitt and Weichert), 123
left, partial and total, physiologic observations during (Bernhard et al.), 807
type of heart assist device, peristaltic, modified, acute hemodynamic studies of (Takano et al.), 796

C

Caged-lens prostheses, mechanical dysfunction in (Hopeman et al.), 51
Carcinoma, bronchogenic, invasive, early and in situ: report of 28 cases with postoperative survival data (Woolner et al.), 275
mitochondrial peculiarities in (Razzuk et al.), 291
inoperable, of esophagogastric junction, palliative esophagogastrostomy for (Johnson and Clagett), 269
Cardiac allografts, canine, effect of local graft irradiation on rejection of (Graham et al.), 730
homograft, canine, hemodynamic effects of synchronous atrial contractions in (Nelson et al.), 427
pacemaker, radioisotope-powered, experimental evaluation of (Morrow et al.), 836
transplantation in man: VIII. Survival and function (Stinson et al.), 303
Cardiac—Cont'd
wounds at military evacuation hospital in Vietnam: review of one year's experience (Gielchinsky and McNamara), 603
Cardiodynamics, late, following correction of ventricular septal defects with previous pulmonary artery banding (Ebert et al.), 516
Cardiogenic shock, comparative study of arterio-arterial and intra-aortic balloon counterpulsation in therapy of (Fleming and Aaby), 818
Cardiopulmonary bypass, partial, lasting up to seven days in alert lambs with membrane lung blood oxygenation (Kolobow et al.), 781
prolonged, and integrity of small blood vessels: role of serotonin and of platelet transfusion (Wisselink et al.), 789
total, plasma serotonin levels during (Demos et al.), 257
homotransplantation (Grinnan et al.), 609
Catheter, pacemaker, in internal jugular vein, subclavian-axillary vein thrombosis following implantation of (Griepp et al.), 889
Cell destruction, blood, red, associated with valvular disease and prosthetic valves, quantitation of (Wallace et al.), 842
Central-flow tilting disc valve prosthesis, new: one year's clinical experience with 103 patients (Björk), 355
Chest, flail, factors affecting prognosis in patients with (Sankaran and Wilson), 402
surgery, milestones in (Eloesser), 157
Children with two-chambered right ventricle, course of (Hartmann et al.), 72
Circulation, bronchial, in lung transplantation, significance of (Mills et al.), 866
Cloth-covered composite-seat Starr-Edwards valve prostheses, hemodynamic studies in patients with (Kloster et al.), 879
valves and role of antibiotics, evaluation of: experimental endocarditis following cardiac valve replacement (Detmer et al.), 46
Composite-seat Starr-Edwards valve prostheses, cloth-covered, hemodynamic studies in patients with (Kloster et al.), 879
Congenital arteriovenous fistula between left internal mammary artery and ductus venosus: case report (Stanford et al.), 248
Connection, venous, pulmonary, anomalous, total: surgical considerations and results of operation (Gomes et al.), 116
Contractions, atrial, synchronous, in canine cardiac homograft, hemodynamic effects of (Nelson et al.), 427

Cor triatriatum: clinical presentation and operative treatment (Brickman et al.), 523
Coronary artery, ascending aorta to, saphenous vein bypass grafts (Mitchel et al.), 457
disease, arterial and venous microsurgical bypass grafts for (Green et al.), 491
main, left, and divisions, severe segmental obstruction of: surgical treatment by saphenous vein graft technique (Favaloro et al.), 469
right, diffusely diseased and totally occluded, complete surgical correction of (Robinson et al.), 504
occlusion, extent of ischemic damage in myocardium of cat after permanent and temporary (Krug), 242
surgery, direct, physiologic parameters of ventricular function as affected by (Johnson et al.), 483
Correction, operative, new method of: unusual case of transposition of great vessels (Shumacker and Armer), 237
surgical, complete, of totally occluded and diffusely diseased right coronary artery (Robinson et al.), 504
Corrosives, total obliteration of esophagus and hypopharynx due to: new technique of reconstruction (Gupta), 264
Counterpulsation, balloon, arterio-arterial and intra-aortic, in therapy of cardiogenic shock, comparative study (Fleming and Aaby), 818
Criteria, design, for artificial heart valves (Akutsu), 34

D

Decortication for trapped lung in newborn infant (Davies et al.), 600
Defect(s), septal, ventricular, nonrestrictive, correlation of mean pulmonary arterial pressure with results of surgery for (Wagner et al.), 510
with previous pulmonary artery banding, late cardiodynamics following correction of (Ebert et al.), 516
Demand pacing of heart, permanent transvenous (Geha and Anderson), 63
Design criteria for artificial heart valves (Akutsu), 34
Deterioration of formalin-treated aortic valve heterografts (Buch et al.), 673
Dextrocardia, and ventricular septal defect, bronchial compression from enlarged, hypertensive right pulmonary artery with corrected transposition of great arteries: diagnosis and surgical treatment (Miller et al.), 233
Dextrose, insulin, and potassium on ventricular irritability in acute myocardial infarction, evaluation of (Danielson et al.), 653
Diastolic augmentation during heart bypass (Hewitt and Weichert), 123
Disc valve prosthesis, tilting, central-flow, new: one year's clinical experience with 103 patients (Björk), 355
Ductus venosus, congenital arteriovenous fistula between left internal mammary artery and: case report (Stanford et al.), 248
Dysfunction, mechanical, in caged-lens prostheses (Hopeman et al.), 51

E

Editorial: Mediastinoscopy—good or evil (Clagett), 754
Effusion, pericardial, with tamponade following anastomosis of ascending aorta to right pulmonary artery (Waterston's operation) (Radley-Smith et al.), 565
Electrophrenic stimulation, intracaval: II. Studies on pulmonary mechanics, surface tension, urine flow, and bilateral phrenic nerve stimulation (Daggett et al.), 98
Endocarditis, experimental, following cardiac valve replacement: evaluation of cloth-covered valves and role of antibiotics (Detmer et al.), 46
fungal, after valve replacements (Chaudhuri), 207
valve, prosthetic (Block et al.), 540
Epicardial and intramural activation of heart, mapping of: technique for localization of chronic infarction during myocardial revascularization (Daniel et al.), 704
Esophagogastric junction, palliative esophagogastrostomy for inoperable carcinoma of (Johnson and Clagett), 269
Esophagogastrostomy, palliative, for inoperable carcinoma of esophagogastric junction (Johnson and Clagett), 269
Esophagus and hypopharynx due to corrosives, total obliteration of: new technique of reconstruction (Gupta), 264
Excavatum, pectus: 20 year surgical experience (Haller et al.), 375
Experimental left ventricular akinesis: results of excision (Pairolero et al.), 683
polycythemia and hemodilution: physiologic and rheologic effects (Replogle and Merrill), 582
production of chronic graded mitral valve stenosis (Hawe et al.), 559

F

Fallot, tetralogy of, severe, management of right ventricular outflow tract in (Hawe et al.), 131

XUM

Fascia lata, heart valve replacement with autologous fascia lata (Ionescu et al.), 331
Fibrillation, ventricular, effect of oxygen and helium mixtures on (Pifarré et al.), 648
Filter, wool, Dacron, during perfusion for open-heart surgery, clinical use of (Osborn et al.), 575
Fistula, arteriovenous, congenital, between left internal mammary artery and ductus venosus: case report (Stanford et al.), 248
Flail chest, factors affecting prognosis in patients with (Sankaran and Wilson), 402
Formalin-treated aortic valve heterografts, deterioration of (Buch et al.), 673
Function tests, pulmonary, in dogs, comparison of lung scanning and differential bronchospirometry as (Isawa et al.), 719
ventricular, left, after occlusion of ascending aorta: assessments of various methods for myocardial protection (Enright et al.), 737
Functional evaluation of preserved heart (Levitsky et al.), 625
Fungal endocarditis after valve replacements (Chaudhuri), 207

G

Gas tensions, physiologic, minimal apparent blood damage in Landé-Edwards membrane oxygenator at (Vervloet et al.), 774
Glenn operation, late ligation of superior vena cava following Glenn operation (Gazzaniga et al.), 84
Grafts, autogenous, molded, grown in response to implanted Silastic, replacement of (Geha et al.), 661
bypass, microsurgical, arterial and venous, for coronary artery disease (Green et al.), 491
vein, saphenous, ascending aorta—to—coronary artery (Mitchel et al.), 457
irradiation, local, on rejection of canine cardiac allografts, effect of (Graham et al.), 730
technique, vein, saphenous, surgical treatment by: severe segmental obstruction of left main coronary artery and divisions (Favaloro et al.), 469

H

Heart assist device, acute hemodynamic studies of modified peristaltic bypass type of (Takano et al.), 796
bypass, left, partial and total, physiologic observations during (Bernhard et al.), 807
Heart—Cont'd
mapping of epicardial and intramural activation of: technique for localization of chronic infarction during myocardial revascularization (Daniel et al.), 704
preserved, functional evaluation of (Levitsky et al.), 625
transplanted, effect of anticoagulants on (Kahn et al.), 616
valve(s), artificial, design criteria for (Akutsu), 34
replacement, use of autogenous peritoneum for (Fadali et al.), 188
with autologous fascia lata (Ionescu et al.), 331
Helium and oxygen mixtures on ventricular fibrillation, effect of (Pifarré et al.), 648
Hemodilution, experimental polycythemia and: physiologic and rheologic effects (Replogle and Merrill), 582
Hemodynamic effects of synchronous atrial contractions in canine cardiac homograft (Nelson et al.), 427
studies, acute, of modified peristaltic bypass type of heart assist device (Takano et al.), 796
in patients with cloth-covered composite-seat Starr-Edwards valve prostheses (Kloster et al.), 879
Heterografts, valve, aortic, formalin-treated, deterioration of (Buch et al.), 673
Homograft aortic valve replacement (Gonzalez-Lavin and Ross), 1
arterial, pulmonary, replacement of pulmonary artery with (Seki et al.), 853
cardiac, canine, hemodynamic effects of synchronous atrial contractions in (Nelson et al.), 427
Homotransplantation, cardiopulmonary, (Grinnan et al.), 609
Honored Speaker's Address: Milestones in chest surgery (Eloesser), 157
Hypertensive right pulmonary artery, enlarged, with corrected transposition of great arteries, dextrocardia, and ventricular septal defect, bronchial compression from: diagnosis and surgical treatment (Miller et al.), 233
Hypopharynx due to corrosives, total obliteration of esophagus and: new technique of reconstruction (Gupta), 264

I

Impedance plethysmography: noninvasive means of monitoring thoracic surgery patient (Van De Water et al.), 641
Implantation, re-, of lung using xenon^{133}, pulmonary angiography, and bronchography, serial perfusion and ventilation studies following, (Lincoln et al.), 108

Implantation—Cont'd
of pacemaker catheter in internal jugular vein, subclavian-axillary vein thrombosis following (Griepp et al.), 889
Infant, newborn, decortication for trapped lung in (Davies et al.), 600
Temptrol oxygenator (Clark and Mills), 54
Infarct(s), myocardial, resection of: clinical and pathologic studies (Lajos et al.), 196
Infarction, chronic, during myocardial revascularization, technique for localization: mapping of epicardial and intramural activation of heart (Daniel et al.), 704
myocardial, acute, evaluation of dextrose, insulin, and potassium on ventricular irritability in (Danielson et al.), 653
In situ and early invasive bronchogenic carcinoma: report of 28 cases with postoperative survival data (Woolner et al.), 275
Insufficiency, valvular, pulmonary, acute and chronic, surgical significance of (Ellison et al.), 549
Insulin, and potassium on ventricular irritability in acute myocardial infarction, evaluation of dextrose (Danielson et al.), 653
Intra-aortic and arterio-arterial balloon counterpulsation in therapy of cardiogenic shock, comparative study of (Fleming and Aaby), 818
Intracaval electrophrenic stimulation: II. Studies on pulmonary mechanics, surface tension, urine flow, and bilateral phrenic nerve stimulation (Daggett et al.), 98
Intramural and epicardial activation of heart, mapping of: technique for localization of chronic infarction during myocardial revascularization (Daniel et al.), 704
Intrapulmonary artery balloon pumping: assistance of right ventricle (Kralios et al.), 215
Invasive bronchogenic carcinoma, early and in situ: report of 28 cases with postoperative survival data (Woolner et al.), 275
Ischemia, regional, acute, myocardial metabolism in (Barner et al.), 694
Ischemic damage in myocardium of cat after permanent and temporary coronary occlusion, extent of (Krug), 242
Irradiation, graft, local, on rejection of canine cardiac allografts, effect of (Graham et al.), 730
Irritability, ventricular, in acute myocardial infarction, evaluation of dextrose, insulin, and potassium on (Danielson et al.), 653

J

Jugular vein, internal, subclavian-axillary vein thrombosis following implantation of pacemaker catheter in (Griepp et al.), 889

L

Landé-Edwards membrane oxygenator at physiologic gas tensions, minimal apparent blood damage in (Vervloet et al.), 774
Ligation, artery, pulmonary, contralateral, in baboon, immediate function with survival after left lung autotransplantation and (Joseph and Morton), 859
late, of superior vena cava following Glenn operation (Gazzaniga et al.), 84
Lung allotransplantation, clinical, case of (Hardy et al.), 411
autotransplantation, left, and contralateral pulmonary artery ligation in baboon, immediate function with survival after (Joseph and Morton), 859
benign tumors of: ten-year surgical experience (Arrigoni et al.), 589
membrane, blood oxygenation, partial cardiopulmonary bypass lasting up to seven days in alert lambs with (Kolobow et al.), 781
scanning and differential bronchospirometry as pulmonary function tests in dogs, comparison of (Isawa et al.), 719
transplantation, significance of bronchial circulation in (Mills et al.), 866
trapped, in newborn infant, decortication for (Davies et al.), 600
using xenon^{133}, pulmonary angiography, and bronchography, serial perfusion and ventilation studies following reimplantation of (Lincoln et al.), 108

M

Mammary artery, internal, left, and ductus venosus, congenital arteriovenous fistula between: case report (Stanford et al.), 248
Mapping of epicardial and intramural activation of heart: technique for localization of chronic infarction during myocardial revascularization (Daniel et al.), 704
Mediastinoscopy—experience with 300 consecutive cases (Trinkle et al.), 297
—good or evil (Clagett), 754 (Edit.)
in the diagnosis of nonmalignant thoracic disease (Lincoln and Provan), 144
Membrane lung blood oxygenation, partial cardiopulmonary bypass lasting up to seven days in alert lambs with (Kolobow et al.), 781

Microsurgical bypass grafts, arterial and venous, for coronary artery disease (Green et al.), 491
Milestones in chest surgery (Eloesser), 157
Military evacuation hospital in Vietnam, cardiac wounds at: review of one year's experience (Gielchinsky and McNamara), 603
Mitochondrial peculiarities in bronchogenic carcinoma (Razzuk et al.), 291
Mitral valve disease, coexistent, with left-to-right shunt at atrial level: results of surgical treatment in 15 cases (John et al.), 174
replacement with transplant valves (Suzuki et al.), 13
stenosis, graded, chronic, experimental production of (Hawe et al.), 559
Molded autogenous grafts grown in response to implanted Silastic, replacement of (Geha et al.), 661
Myocardial infarcts, resection of: clinical and pathologic studies (Lajos et al.), 196
infarction, acute, evaluation of dextrose, insulin, and potassium on ventricular irritability in (Danielson et al.), 653
metabolism in acute regional ischemia (Barner et al.), 694
revascularization, technique for localization of chronic infarction during: mapping of epicardial and intramural activation of heart (Daniel et al.), 704
Myocardium, adynamic, operative assessment of ventricular aneurysm and (Calinog et al.), 710
of cat after permanent and temporary coronary occlusion, extent of ischemic damage in (Krug), 242

N

Neonatal air-block syndrome, surgical therapy in (Grosfeld et al.), 392
Newborn infant, decortication for trapped lung in (Davies et al.), 600
Nonmalignant thoracic disease, mediastinoscopy in diagnosis of (Lincoln and Provan), 144

O

Obliteration, total, of esophagus and hypopharynx due to corrosives: new technique of reconstruction (Gupta), 264
Obstruction, segmental, severe, of left main coronary artery and divisions: surgical treatment by saphenous vein graft technique (Favaloro et al.), 469
Occluded, totally, and diffusely diseased right coronary artery, complete surgical correction of (Robinson et al.), 504
Occlusion of ascending aorta, left ventricular function after: assessments of various methods for myocardial protection (Enright et al.), 737
temporary and permanent, extent of ischemic damage in myocardium of cat after (Krug), 242
Open-heart surgery, bleeding patterns after (Gomes and McGoon), 87
clinical use of Dacron wool filter during perfusion for (Osborn et al.), 575
Outflow tract tumor, ventricular, left, causing obstruction, case of: in association with bicuspid aortic valve (Bernstein et al.), 166
Oxygen and helium mixtures on ventricular fibrillation, effect of (Pifarré et al.), 648
Oxygenation, blood, membrane lung, partial cardiopulmonary bypass lasting up to seven days in alert lambs with (Kolobow et al.), 781
Oxygenator, membrane, Landé-Edwards, at physiologic gas tensions, minimal apparent blood damage in (Vervloet et al.), 774
Temptrol, infant (Clark and Mills), 54

P

Pacemaker, cardiac, radioisotope-powered, experimental evaluation of (Morrow et al.), 836
catheter in internal jugular vein, subclavian-axillary vein thrombosis following implantation of (Griepp et al.), 889
Pacing, demand, transvenous, permanent, of heart (Geha and Anderson), 63
Palliative esophagogastrostomy for inoperable carcinoma of esophagogastric junction (Johnson and Clagett), 269
Pectus excavatum: 20 year surgical experience (Haller et al.), 375
Perfusion for open-heart surgery, clinical use of Dacron wool filter during (Osborn et al.), 575
serial, and ventilation studies following reimplantation of lung using xenon^{133}, pulmonary angiography, and bronchography (Lincoln et al.), 108
Pericardial effusion with tamponade following anastomosis of ascending aorta to right pulmonary artery (Waterston's operation) (Radley-Smith et al.), 565

Peristaltic bypass type of heart assist device, modified, acute hemodynamic studies of (Takano et al.), 796
Peritoneum, autogenous, for heart valve replacement, use of (Fadali et al.), 188
Physiologic gas tensions, minimal apparent blood damage in Landé-Edwards membrane oxygenator at (Vervloet et al.), 774
observations during partial and total left heart bypass (Bernhard et al.), 807
parameters of ventricular function as affected by direct coronary surgery (Johnson et al.), 483
Physiology of synthetic blood (Clark et al.), 757
Plasma serotonin levels during total cardiopulmonary bypass (Demos et al.), 257
Platelet transfusion, role of serotonin and of: prolonged partial cardiopulmonary bypass and integrity of small blood vessels (Wisselink et al.), 789
Plethysmography, impedance: noninvasive means of monitoring thoracic surgery patient (Van De Water et al.), 641
Polycythemia, experimental, and hemodilution: physiologic and rheologic effects (Replogle and Merrill), 582
Potassium on ventricular irritability in acute myocardial infarction, evaluation of dextrose, insulin, and (Danielson et al.), 653
Preserved heart, functional evaluation of (Levitsky et al.), 625
President's Address: Of cabbages—and kings (Langston), 151
Pressure, arterial, pulmonary, mean, with results of surgery for nonrestrictive ventricular septal defects, correlation of (Wagner et al.), 510
Prognosis in patients with flail chest, factors affecting (Sankaran and Wilson), 402
Prosthetic tracheal replacement (Borrie and Redshaw), 829
valve endocarditis (Block et al.), 540
quantitation of red blood cell destruction associated with valvular disease and (Wallace et al.), 842
Prosthesis(es), caged-lens, mechanical dysfunction in (Hopeman et al.), 51
valve, disc, tilting, central-flow, new: one year's clinical experience with 103 patients (Björk), 355
Starr-Edwards, composite-seat, cloth-covered, hemodynamic studies in patients with (Kloster et al.), 879
Wada-Cutter, in aortic area, experience with: one-year follow-up (Björk), 26
Pulmonary angiography, and bronchography, serial perfusion and ventilation studies following reimplantation of lung using xenon^{133} (Lincoln et al.), 108
Pu'monary—Cont'd
arterial pressure, mean, with results of surgery for nonrestrictive ventricular septal defects, correlation of (Wagner et al.), 510
artery anastomosis, right—superior vena cava, study of mechanisms of shunt failure after (Boruchow et al.), 531
banding, previous, late cardiodynamics following correction of ventricular septal defects with (Ebert et al.), 516
ligation, contralateral, in baboon, immediate function with survival after left lung autotransplantation and (Joseph and Morton), 859
right, hypertensive, enlarged, with corrected transposition of great arteries, dextrocardia, and ventricular septal defect, bronchial compression from: diagnosis and surgical treatment (Miller et al.), 233
(Waterston's operation), pericardial effusion with tamponade following anastomosis of ascending aorta to (Radley-Smith et al.), 565
with pulmonary arterial homograft, replacement of (Seki et al.), 853
function tests in dogs, comparison of lung scanning and differential bronchospirometry as (Isawa et al.), 719
tuberculosis, current surgical management of (Neptune et al.), 384
valve autograft for aortic valve replacement (Gonzalez-Lavin et al.), 322
valvular insufficiency, acute and chronic, surgical significance of (Ellison et al.), 549
venous connection, anomalous, total: surgical consideration and results of operation (Gomes et al.), 116

R

Radiographic technique, simple, detection of aortic ball variance by: report of case (Murphy et al.), 253
Radioisotope-powered cardiac pacemaker, experimental evaluation of (Morrow et al.), 836
Rejection of canine cardiac allografts, effect of local graft irradiation on (Graham et al.), 730
Replacement of aortic valve with molded autogenous grafts grown in response to implanted Silastic (Geha et al.), 661
of pulmonary artery with pulmonary arterial homograft (Seki et al.), 853
tracheal, prosthetic (Borrie and Redshaw), 829
valve, aortic, homograft (Gonzalez-Lavin and Ross), 1

XUM

Replacement, valve, aortic—Cont'd
pulmonary valve autograft for (Gonzalez-Lavin et al.), 322
cardiac, experimental endocarditis following: evaluation of cloth-covered valves and role of antibiotics (Detmer et al.), 46
fungal endocarditis after (Chaudhuri), 207
heart, use of autogenous peritoneum for (Fadali et al.), 188
with autologous fascia lata (Ionescu et al.), 331
mitral, with transplant valves (Suzuki et al.), 13
Resection of myocardial infarcts: clinical and pathologic studies (Lajos et al.), 196
Revascularization, myocardial, technique for localization of chronic infarction during: mapping of epicardial and intramural activation of heart (Daniel et al.), 704
Right pulmonary artery, hypertensive, enlarged, with corrected transposition of great arteries, dextrocardia, and ventricular septal defect, bronchial compression from: diagnosis and surgical treatment (Miller et al.), 233

S

Saphenous vein bypass grafts, ascending aorta–to–coronary artery (Mitchel et al.), 457
graft technique, surgical treatment by: severe segmental obstruction of left main coronary artery and divisions (Favaloro et al.), 469
Scanning, lung, and differential bronchospirometry as pulmonary function tests in dogs, comparison of (Isawa et al.), 719
Segmental obstruction, severe, of left main coronary artery and divisions: surgical treatment by saphenous vein graft technique (Favaloro et al.), 469
Septal defects, ventricular, nonrestrictive correlation of mean pulmonary arterial pressure with results of surgery for (Wagner et al.), 510
with previous pulmonary artery banding, late cardiodynamics following correction of (Ebert et al.), 516
Serotonin levels, plasma, during total cardiopulmonary bypass (Demos et al.), 257
and of platelet transfusion, role of: prolonged partial cardiopulmonary bypass and integrity of small blood vessels (Wiselink et al.), 789
Shock, cardiogenic, comparative study of arterio-arterial and intra-aortic balloon counterpulsation in therapy of (Fleming and Aaby), 818
Shunt failure after superior vena cava—right pulmonary artery anastomosis, study of mechanisms of (Boruchow et al.), 531
left-to-right, at atrial level, coexistent mitral valve disease with: results of surgical treatment in 15 cases (John et al.), 174
Silastic, implanted, replacement of aortic valve with molded autogenous grafts grown in response to (Geha et al.), 661
Starr-Edwards valve prostheses, composite-seat, cloth-covered, hemodynamic studies in patients with (Kloster et al.), 879
Stenosis, valve, mitral, graded, chronic, experimental production of (Hawe et al.), 559
Stimulation, electrophrenic, intracaval: II. Studies on pulmonary mechanics, surface tension, urine flow, and bilateral phrenic nerve stimulation (Daggett et al.), 98
Subclavian-axillary vein thrombosis following implantation of pacemaker catheter in internal jugular vein (Griepp et al.), 889
Superior vena cava–right pulmonary artery anastomosis, study of mechanisms of shunt failure after (Boruchow et al.), 531
Surgical significance of acute and chronic pulmonary valvular insufficiency (Ellison et al.), 549
Survival and function, VIII. Cardiac transplantation in man (Stinson et al.), 303
Syndrome, air-block neonatal, surgical therapy in (Grosfeld et al.), 392
Synthetic blood, physiology of (Clark et al.), 757

T

Tamponade following anastomosis of ascending aorta to right pulmonary artery (Waterston's operation), pericardial effusion with (Radley-Smith et al.), 565
Temptrol oxygenator, infant (Clark and Mills), 54
Tensions, gas, physiologic, minimal apparent blood damage in Landé-Edwards membrane oxygenator at (Vervloet et al.), 774
Tetralogy of Fallot, severe, management of right ventricular outflow tract in (Hawe et al.), 131
Thrombosis, vein, subclavian-axillary, following implantation of pacemaker catheter in internal jugular vein (Griepp et al.), 889
Tracheal replacement, prosthetic (Borrie and Redshaw), 829
Tract, outflow, ventricular, right, in severe tetralogy of Fallot, management of (Hawe et al.), 131

XUM

Transfusion, platelet, role of serotonin and of: partial cardiopulmonary bypass and integrity of small blood vessels (Wisselink et al.), 789
Transplant valves, mitral valve replacement with (Suzuki et al.), 13
Transplantation, cardiac, in man: VIII. Survival and function (Stinson et al.), 303
lung, significance of bronchial circulation in (Mills et al.), 866
Transplanted heart, effect of anticoagulants on (Kahn et al.), 616
Transposition, corrected, of great arteries, dextrocardia, and ventricular septal defect, bronchial compression from enlarged, hypertensive right pulmonary artery with: diagnosis and surgical treatment (Miller et al.), 233
of great vessels, unusual case: new method of operative correction (Shumacker and Armer), 237
Transvenous demand pacing of heart, permanent (Geha and Anderson), 63
Triatriatum, cor: clinical presentation and operative treatment (Brickman et al.), 523
Tuberculosis, pulmonary, current surgical management of (Neptune et al.), 384
Tumor(s), benign, of lung: ten-year surgical experience (Arrigoni et al.), 589
tract, outflow, ventricular, left, causing obstruction, case of: in association with bicuspid aortic valve (Bernstein et al.), 166
Two-chambered right ventricle, course of children with (Hartmann et al.), 72

V

Valve(s), aortic, bicuspid, in association with: case of left ventricular outflow tract tumor causing obstruction (Bernstein et al.), 166
with molded autogenous grafts grown in response to implanted Silastic, replacement of (Geha et al.), 661
disease, mitral, coexistent, with left-to-right shunt at atrial level: results of surgical treatment in 15 cases (John et al.), 174
endocarditis, prosthetic (Block et al.), 540
heart, artificial, design criteria for (Akutsu), 34
heterografts, aortic, formalin-treated, deterioration of (Buch et al.), 673
prosthesis in aortic area, experience with Wada-Cutter: one-year follow-up (Björk), 26
disc, tilting, central-flow, new: one year's clinical experience with 103 patients (Björk), 355
Valve(s), prosthesis—Cont'd
Starr-Edwards, composite-seat, cloth-covered, hemodynamic studies in patients with (Kloster et al.), 879
prosthetic, quantitation of red blood cell destruction associated with valvular disease and (Wallace et al.), 842
replacement, aortic, homograft (Gonzalez-Lavin and Ross), 1
pulmonary valve autograft for (Gonzalez-Lavin et al.), 322
cardiac, experimental endocarditis following: evaluation of cloth-covered valves and role of antibiotics (Detmer et al.), 46
fungal endocarditis after (Chaudhuri), 207
heart, use of autogenous peritoneum for (Fadali et al.), 188
with autologous fascia lata (Ionescu et al.), 331
mitral, with transplant valves (Suzuki et al.), 13
stenosis, mitral, graded, chronic, experimental production of (Hawe et al.), 559
Valvular insufficiency, pulmonary, acute and chronic, surgical significance of (Ellison et al.), 549
Variance, ball, aortic, by simple radiographic technique, detection of: report of case (Murphy et al.), 253
Vein graft technique, saphenous, surgical treatment by: severe segmental obstruction of left main coronary artery and divisions (Favaloro et al.), 469
thrombosis, subclavian-axillary, following implantation of pacemaker catheter in internal jugular vein (Griepp et al.), 889
Vena cava, superior, following Glenn operation, late ligation of (Gazzaniga et al.), 84
Venous and arterial microsurgical bypass grafts for coronary artery disease (Green et al.), 491
connection, pulmonary, anomalous, total: surgical considerations and results of operation (Gomes et al.), 116
Ventilation studies following reimplantation of lung using xenon^{133}, pulmonary angiography, and bronchography, serial perfusion and (Lincoln et al.), 108
Ventricle, right, two-chambered, course of children with (Hartmann et al.), 72
Ventricular akinesis, left, experimental: results of excision (Pairolero et al.), 683
aneurysm and adynamic myocardium, operative assessment of (Calinog et al.), 710
fibrillation, effect of oxygen and helium mixtures on (Pifarré et al.), 648

XUM

Ventricular—Cont'd
function as affected by direct coronary surgery, physiologic parameters of (Johnson et al.), 483
left, after occlusion of ascending aorta: assessments of various methods for myocardial protection (Enright et al.), 737
irritability in acute myocardial infarction, evaluation of dextrose, insulin, and potassium on (Danielson et al.), 653
outflow tract, right, in severe tetralogy of Fallot, management of (Hawe et al.), 131
tumor, left, causing obstruction, case of: in association with bicuspid aortic valve (Bernstein et al.), 166
septal defect, bronchial compression from enlarged, hypertensive right pulmonary artery with corrected transposition of great arteries, dextrocardia, and: diagnosis and surgical treatment (Miller et al.), 233
nonrestrictive, correlation of mean pulmonary arterial pressure with results of surgery for (Wagner et al.), 510

Ventricular septal defect—Cont'd
with previous pulmonary artery banding, late cardiodynamics following correction of (Ebert et al.), 516
Vessels, blood, small, prolonged partial cardiopulmonary bypass and integrity of: role of serotonin and of platelet transfusion (Wisselink et al.), 789
great, unusual case of transposition of: new method of operative correction (Shumacker and Armer), 237

W

Wada-Cutter valve prosthesis in aortic area, experience with: one-year follow-up (Björk), 26
Wounds, cardiac, at military evacuation hospital in Vietnam: review of one year's experience (Gielchinsky and McNamara), 603

X

Xenon^{133}, pulmonary angiography, and bronchography, serial perfusion and ventilation studies following reimplantation of lung using (Lincoln et al.), 108
